Auf Einladung des Institutes für Algebra und Geometrie spricht

Herr Dr. Sam Corson

(University of Bristol)

über das Thema

Groups with finitary behavior

Zoom-Koordinaten: Meeting ID: 971 4945 5855 / Passcode: 490213

Zeit: Dienstag, 15. Juni 2021, 14.00 Uhr

Zu diesem Vortrag laden wir alle Interessierten herzlich ein.

Dr. Olga Varghese

Abstract: This talk will be a discussion of infinite groups which share properties with finite groups, either in their actions (strongly bounded groups) or in their relationship to proper subgroups (Jonsson groups). There will be a historical review and exposition of some recent constructions of such groups. Includes joint work with Saharon Shelah.
